

AROUND SPITSBERGEN - ARCTIC SUMMER - FULL SPITSBERGEN CIRCUMNAVIGATION

Sail around Spitsbergen taking in the wildlife, whaling history, and stunning landscapes. Visit historic whaling stations and search for walruses and reindeer. Head to Hornsund to explore the glaciers and the hunting grounds of the Polar Bear.

ITINERARY

Day 1: Largest town, biggest island

You touch down in Longyearbyen, the administrative center of Spitsbergen, the largest island of the Svalbard archipelago. Enjoy strolling around this former mining town, whose parish church and Svalbard Museum make for fascinating attractions. Though the countryside appears stark, more than a hundred species of plant have been recorded in it.

In the early evening the ship sails out of Isfjorden, where you might spot the first minke whale of your voyage. In the evening you sail for Trygghamna, where you see the remains of a 17th-century English whaling station and 18th-century Pomor hunting station, both of which you can visit the next morning.

Day 2: Foxes, seabirds, and grazing reindeer

From Trygghamna you walk to Alkhomet, a large seabird cliff where the birds are scouting out breeding places. Below the cliffs is a common place to spot Arctic foxes, and you may also see reindeer grazing on the lush vegetation if there's not too much snow.

Day 3: Remains of the whalers

You sail into Fuglefjorden amid views of Svitjodbreen and Birgerbukta, both breeding areas for great skuas as well as likely spots to see a polar bear. On Birgerbukta you can see 17th-century Basque ovens once used for cooking whale blubber. The aim next is to visit Ytre Norskøya, a small island that served for many years as a Dutch whaling lookout. Here you can still follow the whalers' tracks to the summit of the island, passing popular bird cliffs on the way. On shore are the remains of more 17th-century blubber ovens, while Arctic skuas and common eiders breed among the graves of some two hundred Dutch whalers.

Day 4 - 14: The many sights of Svalbard

Today you start by sailing either to Sorgfjord or Murchison Bay, on the north side of which lies an extensive polar desert that is home to numerous reindeer as well as a Swedish research station. You then continue through Hinlopen Strait, surrounded by lofty ice caps.

Over the following days, you may visit the following sites:

Lomfjord - This is a beautiful fjord fringed by towering mountains offering a great opportunities for a hike.

Wilhelmøya - A tundra landscape in which polar bears can possibly be seen, Wilhelmøya is also a good area for shoreline, inland, and altitude-gaining hikes.

Svartknausflya - You may take an excursion to this stark polar desert, which is almost devoid of vegetation but rich with invertebrate fossils and whale skeletons along its raised beaches.

Heleysundet - A narrow but picturesque waterway between Spitsbergen and Barents with this route can only be made against the current.

Freemansundet - Depending on conditions, you may also sail through this waterway. A walk at Kapp Lee may introduce you to a few new reindeer and walruses, and you might also visit a large colony of kittiwakes nesting in a canyon in Diskobukta. Arctic foxes and polar bears with their young often roam this canyon, scavenging for birds that fall from the ledges.

Sub-fossilized whale bones are scattered across the raised beaches.

Hornsund - You continue your Spitsbergen voyage by sailing into the labyrinth of side fjords around Hornsund. At Brepollen rests a large glacial deposit at the head of the fjord. Sailing along the glacier front will afford you good chances of spotting bearded seals and polar bears. The geological formations in this area are vibrant and mesmerizing.

Bellsund - En route to Longyearbyen, you may reach Ahlstrandhalvøya. More fascinating geological formations can be seen here, as well as the remains of 20th-century beluga hunting. (This is still a good area to see beluga.)

Day 15: There and back again

Every adventure, no matter how grand, must eventually come to an end. You disembark in Longyearbyen, taking home memories that will accompany you wherever your next adventure lies.

Please note:

All itineraries are for guidance only. Programs may vary depending on local ice, weather, and wildlife conditions. Landings are subject to site availabilities, permissions, and environmental concerns per AECO regulations. Official sailing plans and landing slots are scheduled with AECO prior to the start of the season, but the expedition leader determines the final plan. Flexibility is paramount for expedition cruises, and willingness to compromise on comfort is a basic requirement on

board a historic sailing vessel. Important information about the use of sails: The vessel is equipped with sails to be used in good conditions (based on open sea, water depth, wind, and time allowance), but the use of sails is not guaranteed. The captain decides whether to use the sails or the engine. If sails are used, the crew will operate them. Guests must follow the safety instructions of the team. The average cruising speed for s/v Rembrandt van Rijn is 6.5 knots.

YOUR SHIP: REMBRANDT VAN RIJN

YOUR SHIP: Rembrandt van Rijn

VESSEL TYPE:

LENGTH:

PASSENGER CAPACITY:

BUILT/REFURBISHED:

S/V 'Rembrandt Van Rijn' was originally built as a herring lugger. The vessel was rebuilt as a three-masted passenger sailing schooner in The Netherlands in 1994 and sailed in Spitsbergen (1994 - 1996) and in Galapagos (1998 - 2001). The vessel underwent a complete rebuilding and refurbishment program in 2011. The communication and navigation equipment has been completely renewed according to the latest SOLAS regulations. The Rembrandt van Rijn measures 56 meters in length (168 ft.), 7 meters in width and has a draft of 2, 5 meters. The maximum engine speed is 9 knots. She has an experienced crew of 12 on board including two tour guides. The ship can accommodate a maximum of 33 passengers in 16 cabins: 1 Triple Private cabin with porthole (with shower and toilet), 6 Twin Private Inside cabins (with shower and toilet, no porthole), 9 Twin Private cabins (with shower and toilet and porthole). The general interior public areas include a spacious restaurant area so that all meals can be taken together as well as separate bar area and reading table area. There is room to relax, read and socialize. The ship is well suited for expedition cruising among small islands and offers excellent open deck viewing areas, even when under sail. The two inflatable rubber crafts (zodiacs) enable landing

and wildlife viewing opportunities in otherwise

inaccessible areas.
