BAFFIN BAY SECRETS - GREENLAND LUXURY ADVENTURE

Dive into the heart of Baffin Bay, a vast icebound world where the currents shape landscapes of striking beauty. Amid the majestic silhouettes of icebergs, Inuit villages, home to some of the last bear hunters and narwhal fishers, appear as flashes of colour at the foot of basalt formations. Savissivik and its frozen giants evoke a timeless world, while Disko Bay, listed as a UNESCO World Heritage Site, reveals natural formations in a constant state of metamorphosis. In these lands where Inuit traditions endure amid the vast white expanse, the horizon may offer a glimpse of the grace of a narwhal or the imposing presence of a polar bear. Further south, tundra and steep cliffs form a vivid landscape marked by the primal power of ice. We are privileged guests in these extreme lands where we are at the mercy of weather and ice conditions. The itinerary, landings on certain sites and the observation of certain wildlife cannot be guaranteed. They vary from day to day, making each PONANT cruise a unique experience. The Captain and the Expedition Leader will make every effort to ensure that your experience is as rich as possible, while complying with the safety rules and instructions imposed by the AECO.

ITINERARY

Day 1 - Kangerlussuaq

From 1941 to 1992, the town of Kangerlussuaq in Greenland was home to an American military base. Nowadays, thanks to its international airport, it has become a transit point for travellers seeking adventure in the Far North. Located to the north of the Arctic Circle, this town is the starting point of magnificent discoveries surrounded by unspoiled nature. Indeed, just a few dozen kilometres from there it is possible to get close to the Greenland ice sheet, the largest body of ice in the Northern Hemisphere. From Kangerlussuaq, admire also the superb landscapes of tundra in autumnal colours, where Arctic hares, musk oxen, Arctic foxes, reindeer, falcons and eagles live.

Day 2 - Nooralak

Located a few kilometres away from the Arctic Circle, the **Nooralak** peninsula features raw and untamed beauty. Nature reigns supreme here, **with** **the tundra stretching as far as the eye can see**, decked out in various forms of flora and inhabited by Greenland's emblematic fauna -- snow buntings, common ravens, reindeer, musk oxen, and the discreet Arctic fox. The heights of Nooralak afford **sublime panoramas over the Itteq fjord**, whose water reflects the moving skies of the Far North.

Day 3 - Disko Bay

To the east of Baffin Bay, discover Disko Bay, scattered with countless icebergs produced by the Ilulissat Icefjord, a UNESCO World Heritage Site. From your ship, admire the majestic ballet of these ice giants as they slowly drift across the dark waters. This site is a natural marvel of Greenland, and is also renowned as an observation point for the region's many humpback whales. The encounters with wild fauna and stunning landscapes in the heart of this spectacular and fragile nature will be pure moments of wonder for you.

Day 4 - Base Paul-Émile Victor, Eqi Glacier

"The most beautiful place in the Arctic" is how Paul-Émile Victor described Greenland, a land of great icebergs and of towering ice formations calved by the giant glaciers of the polar ice cap. The Eqi Glacier is one of the region's most impressive sights. Here, the silence is broken only by the roaring and cracking of the ice. It is impossible to know if one is shivering from cold or from the sheer thrill of being here... Imagine the vast outline of a glacier, its translucent crystals glowing with an ice-blue fire in the sunlight. Paul-Émile Victor's shelter cannot be overlooked; it was from here that the French Polar Expeditions' anthropological

and geographic explorations set off in the 1950s.

Day 5 - Akulleq

In the curve of Uummanaq Bay, opposite a narrow passage between two islands, you will discover the moonscape of the small desert island of Akulleq. The ochre yellow and orange of this mineral site look ablaze under the sunshine of the polar summer. From the island's summit you will be able to contemplate a panoramic view of the bay's magical landscape and its huge icebergs with surprising shapes.

Day 6 - Kullorsuaq

Well beyond the Arctic Circle, in the majestic landscapes of Greenland's Northwest, you will find the village of Kullorsuaq, the last bastion of Greenland's traditional hunters. Here is where you will find Greenland's true character... Vast mineral expanses, sumptuous mountains, impressive glaciers and, above all, the local population which still lives off fishing and seal or bear hunting. Hospitality and respect for nature are essential elements in the daily lives of these men, who live an austere life. When we drop anchor in this remote part of the world, set off to discover these friendly people who are also talented craftsmen, deftly sewing the furs and skins of marine mammals. This will be a unique and authentic experience.

Day 7 - Savissivik

Some places in this world are so magical that their beauty cannot be described in words... Savissivik, a small Inuit village with less than a hundred inhabitants, is one such place. Rightly considered to be the biggest iceberg graveyard in Greenland, it is a stunning sight to behold. During your zodiac outing, you will sail between these icy giants. Once on land, you can hike to a viewpoint from which to enjoy breathtaking views over these

The image shows a group of people in a zodiac boat on a sea filled with icebergs. The background features a large, snow-capped mountain range under a cloudy sky. The boat is in the foreground, with several people wearing winter gear and hats, some waving. The water is dark blue, and the icebergs are white and grey.

icebergs, which come in an incredibly diverse range of shapes and colours. Photographers will love it. Savissivik Bay attracts many bears and is also known for having been the home of one of the world's biggest meteorites, but the latter has now been moved to a museum in New York.

Day 8 - Pond Inlet, Nunavut

On Baffin Island, located in northern Canada at the mouth of the famous North West Passage, there is a small Inuit settlement at the very bounds of infinity. To get there, cross the Arctic Circle, the imaginary line that separates man from lands of mystery and wonder. It's not so much the way of life that sets Pond Inlet's inhabitants apart, so much as the setting. Snow-capped mountains, fjords and glaciers combine in a dazzling natural environment that fills space and expands time. Some discoveries change you forever: this is one of them.

Day 9 - Devon Island, Nunavut

Located in Baffin Bay, **Devon Island** is part of the Canadian Arctic Archipelago. Robert Bylot and William Baffin were the first Europeans to sight Devon Island in 1616 but it would only be mapped two centuries later by the British sailor William E. Parry, who named it after the eponymous English region. Around 1920, the **Hudson's Bay Company** set up a fur-trading outpost there, until the departure of the Inuits in 1936. A new attempt to populate it was made at the beginning of the 1950s. Only a few buildings in ruins, vestiges of that time, remain today. In the heart of these Far North landscapes, keep your eyes peeled for the Arctic wildlife that populates these shores, including the Lord of the Kingdom, the polar bear, that you may be lucky enough to spot.

Day 11 - At sea

During your journey at sea, make the most of the many services and activities on board. Treat yourself to a moment of relaxation in the spa or stay in shape in the fitness centre. Depending on the season, let yourself be tempted by the swimming pool or a spot of sunbathing. This journey without a port of call will also be an opportunity to enjoy the conferences or shows proposed on board, depending on the activities offered, or to do some shopping in the boutique or to meet the PONANT photographers in their dedicated space. As for lovers of the open sea, they will be able to visit the ship's upper deck to admire the spectacle of the waves and perhaps be lucky enough to observe marine species. A truly enchanted interlude, combining comfort, rest and entertainment.

Day 13 - Evighedsfjorden

Your ship glides slowly along the water towards the west coast of Greenland, to enter Evighedsfjorden, just a few kilometres south of Kangerlussuaq. Evighedsfjorden means "the fjord of Eternity", and for good reason: just when you think you've reached the end of this stretch of sea measuring over 100 kilometres in length, it seems to go on forever, as though to bring even more pleasure to those sailing in it. The spectacular scenery ranges from glaciers to tundra with an abundant flora, and jagged cliffs where numerous bird species have taken up residence. Take the time to observe the white-tailed eagles and the colonies of seagulls and black-legged kittiwakes flying overhead in the area.

Day 14 - Nuuk

When Erik Le Rouge, the exiled Norse chief, landed on the coast of Nuuk, he found a fertile and welcoming land dotted with fjords. He settled there with a group of his former countrymen, and **the Norse** remained the principal inhabitants until, over a period of 500 years, their population declined and gave way to the Inuit. **Nuuk** is situated at the mouth of one of the largest networks of fjords in the world, where the waters never freeze. The town spreads gently out towards the **Davis Strait** and enjoys an historic center that is particularly rich in

national heritage. The vivid reds, blues, greens and yellows of the houses are a lively contrast to the somber waters of Greenland and serve to lift the spirits of the locals during the Winter months.
