

INTO THE NORTHWEST PASSAGE (EAST TO WEST)

A journey from Kangerlussuaq, Greenland to Kugluktuk, Nunavut. Travel aboard the Ocean Endeavour in comfort. Our fleet of Zodiacs will take us where the action is--the heart of history. Our voyage begins in Greenland, home to mighty icebergs, dramatic fjords, and calving glaciers! Colourful villages offer rich culture. Crossing the Davis Strait, we'll explore the Baffin Island coast. We're on the watch for whales, birds and bears. Zodiacs stand by for excursions; visit Franklin expedition graves at Beechey Island. Follow in the wakes of Franklin, Rae, Amundsen and many more polar explorers. Meet the Inuit who call the Arctic home. Travel with scientists, artists, musicians, local culturalists, and historians--all of whom are drawn magnetically north. Sail the great sea-route at the top of the world. The Northwest Passage calls you, too! Please note: your voyage rates do not include commercial and charter flight costs.

ITINERARY

Day 1: Kangerlussuaq, Greenland

Kangerlussuaq is a former US Air Force base and Greenland's primary flight hub. After our charter flight from Toronto, we will transfer to Ocean Endeavour by Zodiac. Sondre Stromfjord is one of the longest fjords in the world: 168 kilometres of superb scenery. Steaming down this dramatic fjord we'll cross the Arctic Circle--from the north!

Day 2: Sisimiut Coast

West Greenland's complex coastal waterways include glaciers, islands and fjords against a towering mountain backdrop. The waters are relatively warm here, due to the West Greenland Current and the sub-Arctic Location. Abundant fauna and marine life have supported human habitation here as far back as 4,500 years.

Days 3: Ilulissat

Ilulissat means "iceberg", an apt name for this site at the outlet of the Sermeq Kujalleq glacier--a UNESCO World Heritage Site, and the source of many of the icebergs in the North Atlantic. We will cruise in our fleet of Zodiacs to appreciate the icebergs, and visit the town of Ilulissat, with its museums, cafes, craft shops, and busy fishing harbour.

Days 4 - 5: Western Greenland

Exploring by ship and Zodiac along the west coast of Greenland, we have numerous options for expedition stops, to make the most of weather and wildlife conditions. Departing Greenland, we cross Baffin Bay toward Nunavut.

Day 6: At Sea -- Davis Strait

As we steam toward Nunavut, our resource staff will deepen your understanding of the Arctic. This is an excellent time to enjoy workshops, watch a documentary, or get out on deck. Keep your binoculars ready for minke and humpback whales, as well as the seabirds that are sure to mark our passage.

Day 7: Mittimatalik (Pond Inlet), NU

Mittimatalik is a busy Arctic community in a beautiful setting, a fascinating place to wander. The cultural presentation at the Community Hall is not to be missed--arts and crafts may be available here too.

Days 8-10: Tallurutiup Imanga (Lancaster Sound) & Devon Island

We will spend three days exploring Tallurutiup Imanga (Lancaster Sound), one of the newest National Marine Conservation Areas in Nunavut. Narwhal, beluga, and bowhead whales transit and feed in this area. We'll cruise by ship and Zodiac in search of wildlife. On the northern border of Tallurutiup Imanga lies Devon Island, the largest uninhabited island on Earth at over fifty thousand square kilometres. Flat topped mountains, glacial valleys, and a substantial ice cap give Devon Island its unique character. We hike the tundra, cruise a glacier face, and seek wildlife from ship and by shore. Archaeological sites with expert interpretation allow us to learn about the Inuit history of this now-abandoned island. We'll visit the remains of a RCMP and Hudson's Bay Company site at Dundas Harbour.

Day 11: Beechey Island

In 1845, Sir John Franklin set out from England with HMS Erebus and HMS Terror, attempting to sail through the Northwest Passage. His crew overwintered at Beechey Island--where three of his men died. Numerous search parties later used Beechey as a depot and rendezvous. Amundsen, Bernier, and Larsen visited Beechey. Thomas Morgan of the HMS Investigator was buried there in 1854 alongside Franklin's men. The graves and the ruins of Northumberland House are a haunting memorial.

Days 12-13: Prince Regent Inlet

This passage marks an area rich in marine and avian life. Thick-billed Murres, Ivory Gulls, beluga, narwhal and bowhead whales reside in the ice-strewn waters. In addition to abundant wildlife, we'll delve deeper into the exploration of the Northwest Passage and mercantile efforts of the Hudson's Bay Company.

Days 14 - 16: Kitikmeot Region

The traditional territory of the Netsilik Inuit, the Kitikmeot Region consists of parts of Victoria Island, the adjacent part of the mainland as far as the Boothia Peninsula, King William Island, and the southern portion of Prince of Wales Island. Recently, the Kitikmeot Region has been in the news since the finding of the lost ships of the Franklin Expedition in its waters. It is Nunavut's least-populated region, though wildlife abounds here both in the sea and on land. We will spend our time navigating the ice-strewn waters in search of wildlife. We'll also call in at Uqsuqtuuq (Gjoa Haven) home of the Guardians of Terror Bay. The European name, Gjoa Haven, honours Roald Amundsen who overwintered in the bay for two years while searching for the Northwest Passage. Amundsen became the first European to cross the Northwest Passage, thanks to the knowledge and largesse of Inuit. The community has an excellent cultural centre and is well known for carvings and wall hangings.

Day 17: Kugluktuk (Coppermine)

Located at the mouth of the Coppermine River, Kugluktuk is the westernmost community in Nunavut.

Please Note:

This is our proposed itinerary. It is highly probable that weather, sea, and ice conditions will not allow us to travel this exact route. Our Expedition Leader and the Ocean Endeavour's captain will determine our exact route day by day.
