ITINERARY

Day 1 MARIGOT

Located on the west coast of the French side of Saint Martin, an island in the north-east of the Caribbean Sea, Marigot has stunning discoveries in store for you. Its streets are home to old Creole huts, the traditional dwellings in the 19th century, as well as a host of luxury boutiques and artist studios. Overlooking Marigot Bay and facing Anguilla, Fort Louis is an ideal spot from which to admire the Simpson Bay Lagoon and the surrounding small, lush mountains. For those who enjoy walking, taking a lovely stroll from the Fort Louis marina via the market, is an opportunity to fully enjoy the easy way of life in this charming, picturesque town.

Day 2 AT SEA ABOARD LE PONANT & SANDY ISLAND, ANGUILLA

During your day at sea on board Le Ponant, make the most of your free time and the comfort of your ship for a moment of rest or conviviality. If the weather is right, let yourself be tempted by a spot of sunbathing. This day without a port of call will also be an opportunity to do some shopping in the boutique and share the highlights of your cruise with the other passengers. As for lovers of the open sea, they will be able to visit the ship's upper deck to admire the spectacle of the waves and perhaps be lucky enough to observe marine species. A truly enchanted interlude, combining relaxation, sharing and the pleasure of sailing on a yacht.

Arriving at midday at Sandy Island, this little slice of crescent-shaped land is located in the vast lagoon of Anguilla, off the north-west coast. It has all the magical allure of a desert island. To shelter you from the sun's blaze in the hottest part of the day, the only constructions to be seen are wooden pergolas nestling among the coconut palms. You can swim, snorkel, or just chill.

Day 3 VIRGIN GORDA

Virgin Gorda is one of the British Virgin Islands archipelago's largest islands. There, you will discover The Baths National Park and its well-renowned picture-postcard beaches. Gigantic volcanic boulders sit surrounded by the turquoise waters of the Caribbean, creating spectacular geological formations. Indeed, over the years a network of basins, caves and natural pools has formed, resulting in a sublime aquatic maze in which it is enjoyable to lose oneself before heading to the stunning Devil's Bay Beach. On the island's south-eastern tip, Copper Mine National Park is still home to many ruins of an abandoned copper mine that looks out over the sea.

Day 4 NORMAN ISLAND & COOPER ISLAND

The private property of an American philanthropist, this "pirate island" is brimming with stories of adventure. It is said that pirates used to come here to hide their loot, that a fisherman found treasure deep in a cave here and that it is where Robert Louis Stevenson found the inspiration to write his famous novel. Today, the island is very popular for its snorkelling and diving spots. You will be able to explore the caves of Treasure Point, and kayak to Peter Island with a guide. With its numerous hiking paths, the island is also perfect for walking. Go up the hill to make the most of the incredible views over the Sir Francis Drake Channel. The large port offers passing ships substantial protection. The island is inhabited only by pelicans and wild goats, but you will be able to enjoy grilled fish, seafood and cocktails in one of the establishments on the beach.

Arriving mid-afternoon at Cooper Island. Emerging from the waters of the Caribbean Sea like a natural jewel, Cooper Island is an invitation to peace, contemplation and wonder. On these preserved volcanic lands, the sheer coastlines mingle harmoniously with the waves that caress the shorelines. Enjoy a sunset walk in the heart of the tropical forest, where the mystical murmur of the different bird species makes itself heard and where the creepers snake around secular trees. Cooper Island, a setting of pristine beauty, offers those who explore it an unforgettable escapade in a tropical paradise unlike any other.

Days 5 and 6 - BEEF ISLAND and JOST VAN DYKE

Connected to the island of Tortola by the Queen Elizabeth Bridge, Beef Island will provide you with an enchanted interlude. You will disembark by Zodiac in Trellis Bay, a small town with a market, restaurant, cafe, boutiques selling local crafts and a beach. Visit the shops, boutiques and the Aragorn art gallery,

where you will find artisanal objects from the Caribbean, jewellery, sculptures, calabash purses and bowls as well as handwoven baskets.

In the afternoon we sail to Jost Van Dyke, the pearl of the British Virgin Islands, arriving in afternoon. Said to have been named after a fearsome Dutch pirate from long ago, the hilly landscape offers travellers beautiful wild expanses lined with immaculate beaches where the breeze gently caresses the coconut palms. In this slice of heaven with crystal-clear waters, you will be able to enjoy the lively atmosphere of White Bay. As for the wildlife, iguanas, mongooses, pelicans and blue herons have taken up residence on these islands, much to the delight of our passengers who love a good holiday snap!

Day 7 DOG ISLAND, ANGUILLA

A small and uninhabited island edged with low cliffs and sandy beaches, Dog Island and the three cays that make it up are an important bird breeding area. You will be able to observe a great number of nesting seabirds here, mainly sooty terns. Other seabirds breed here in smaller numbers, in particular red-billed tropicbirds, magnificent frigatebirds, masked boobies, brown boobies, black-headed gulls, bridled terns and brown noddies. The island is also home to several kinds of small reptiles, as well as wild goats. You will also be able to experience the joys of swimming, kayaking and free-diving.

Day 8 Philipsburg

Disembarkation at 0700

The capital of the Dutch part of Saint-Martin, in the south of the island, Philipsburg is bordered by a 3-km (1.9-mile) long expanse of sand. Following a stroll along Front Street and Back

Street, the lively streets edged with houses with colourful facades, take a break on a lounge opposite the calm and turquoise sea of Great Bay. Sint Maarten Museum will immerse you in the past of the Arawaks, an indigenous people of the West Indies. You will also be able to admire the view from Fort Amsterdam, the first fort constructed by the Dutch in the 17th century.

Le Ponant becomes world's first sailing yacht to obtain Relais & Chateaux label After four years of regular ad hoc partnerships, PONANT and Relais & Chateaux are strengthening their ties. The three-master joins the large family of Relais & Chateaux establishments as a new member. It is the first sailing yacht in history to obtain the label and be included in its catalogue of the finest travel addresses in the world. In 2019 & 2020 Le Ponant underwent a huge revamp. Her capacity was reduced from 64 to just 32 passengers who will be served by a crew of 34. Following in the nautical tradition of three-masted sailing ships, Le Ponant will take you on a voyage of discovery. The ship provides intimacy and convivial atmosphere and the refined life on board, the welcoming charm to your cabin, the lounges and the restaurants setting are invitations to relax. Le Ponant is one of the most majestic sailing vessels in the world. With 16 spacious cabins and suites, one crew member per passenger, a dedicated chef, and authentic and exclusive experiences to be enjoyed at every stop, designed for and with you, the ship redefines the concept of luxury yachting and promises you an extraordinary experience. In addition to its tasteful and refined design by Jean-Philippe Nuel, it has many innovative and

environmentally friendly amenities. Conserving the environment is one of our priorities. We have therefore chosen to invest in innovations and equipment at the cutting edge of technology, with the aim of achieving the highest standards possible in the sector. Le Ponant is the only yacht in the world with a hybrid propulsion system. This uniquely designed three-masted schooner can rely solely on its sails but also can connect to the electricity network in certain ports to limit its ecological impact. On board, we have banned the use of plastic in straws, laundry bags, cups and individual food portion packaging. Packaging is collected from our warehouses. Unavoidable plastic waste is sorted and entrusted to resource-recovery companies, who monitor its traceability until its elimination. Le Ponant is equipped with a complete desalination and wastewater treatment system. This biodegradation process works without the use of chemicals. It provides clean water and meets the highest quality standards. On board, 60% of packaging is recycled, while the rate elsewhere in the world is only 20%. The rest is 100% traced. We have on-board compactors adapted to each type of waste and are working to optimise their management on land. Under full sail, gliding over the sea with the wind, you will fall under Le Ponant's spell. Please click the following links to read more about Ponant and the other Ponant
